LEARN ABOUT OZEMPIC FACE & BREASTS

Overview: GLP-1 medications like Ozempic® are popular for weight loss, but the rapid changes can also affect your face—leading to volume loss and sagging skin, which contribute to the appearance of facial aging. Additionally, you could see changes in your breast appearance. Because breasts are largely made up of fat, rapid weight loss can leave them looking deflated or saggy.

“Ozempic Face” Treatment Options:

- ✓ Facelift or Neck Lift
- ✓ Fat Transfer
- ✓ Hyaluronic Acid Fillers
- ✓ Sculptra® – which stimulates your own collagen for long-lasting, natural results.

“Ozempic Breast” Treatment Options:

- ✓ Fat Transfer
- ✓ Breast Augmentation
- ✓ Breast Lift

If you're experiencing facial or breast volume loss & would like to explore solutions, call us to schedule a free consultation!

LEARN ABOUT FACIAL PEELS

Facial peels are a popular non-surgical cosmetic treatment aimed at rejuvenating the skin. They work by applying a chemical solution to the skin, which exfoliates the top layers. Over time, this process reveals a smoother, more even-toned complexion as new skin cells regenerate.

How long is recovery?

There is little to no downtime associated with most of our peels.

What are the benefits?

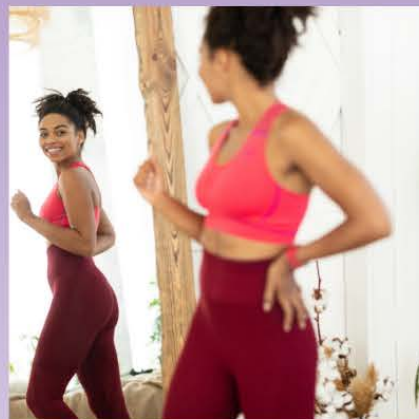

Facial peels can help reduce the appearance of fine lines, acne scars, age spots, and other skin imperfections, leading to a refreshed and youthful appearance.

FEATURED BLOGS

Can I Improve Stretched Breasts After Weight Loss?

Stretched, elongated, or saggy breasts are a common concern after weight loss or significant weight fluctuations. As bariatric surgery and medical weight loss injections become increasingly popular, more and more patients find themselves dissatisfied with the appearance of their breasts once arriving at their ideal weight range. [Click here to read more.](#)

Types of Lip Lift Surgery: How Can Lip Surgery Make Me Look Younger?

Luscious, plump lips are the latest trend in the beauty industry, but not everyone is blessed with naturally full lips. If you've always longed for a fuller pout, then a lip lift surgery could be the answer you've been searching for. A lip lift can also help reduce your philtrum – the area between your upper lip and nose – which tends to elongate with aging. [Click here to read more.](#)

Breast Augmentation for Athletes & Fitness Enthusiasts

Breast augmentation has become increasingly popular among athletes and fitness enthusiasts who want to enhance their physique. However, many active women have concerns about the impact of breast implants on their training routine and athletic performance. [Click here to read more.](#)

GOOGLE REVIEWS

I first heard about Dr. Luck from a couple people I know who have had facial plastic surgery with him in different areas and look absolutely incredible. I am so happy that I went to Dr Luck, he really listened to what my concerns were and what I wanted and delivered it perfectly. I will not go anywhere else for filler ever again, hands down best experience I have ever had with facial injections.

My experience here has been nothing short of amazing. The doctors and nurses went above and beyond to make me feel comfortable every step of the way. Dr. Joe was especially incredible — from surgery day to the pre- and post-op checkups, his care and attention meant so much to me. This procedure has been one of the best things to ever happen in my life. I feel beautiful, feminine, and confident — and every time I get a compliment, I happily refer people to Dr. Joe and his team. I'll continue to recommend them forever!

Dr Joe and his team are outstanding! I would highly recommend him! From the first consult with Dr Joe I knew exactly he is the only Dr I want to work on my body. I received a silicone breast augmentation with Dr Joe and had a wonderful experience! Quick recovery and I'm very happy with my results. Thank you for everything!

OFFICE UPDATES

Peel Event - Friday, September 12th

We still have a few spots available for our Free Peel Event on September 12th at our Burnsville office.

This event is for patients that have never had a Peel at our office.. If this is you, be sure to call or text our office to RSVP!
